

A Message from Morgan County Solid Waste

As Christmas approaches, we ask everyone to do your part to
keep Morgan County Beautiful!

- Remember the compactors are designed for bagged trash only. Make sure all trash goes through the grates. DO NOT lay boxes or other items on top of the grates.
- Put the packing material from large boxes into trash bags.
- If boxes are dry and clean, PLEASE break down (lay flat) and put in the blue recycle box.
- If boxes are wet or dirty, they must be broken down to fit through the grates on the compactor.
- Some locations will have an extra open top dumpster on site. To maximize this space, please break down any boxes you place in these.
- Do NOT put Christmas trees in the compactors. They should be brought to the Transfer Station.
- For your convenience, the Transfer Station will have a FREE TRASH DAY on January 2, 2021 from 7:00a.m. to 12noon. (Please note that standard fees will apply to tires and construction debris. No commercial haulers or contractors are eligible.)

Happy Holidays!
